Representative Robert Pittenger
2701 Coltsgate Road
Suite 105
Charlotte, NC 28211

Dear Representative Pittenger:

The North Carolina Business Group on Health is a trade association of North Carolina employers dedicated to improving the quality and cost-effectiveness of employer-sponsored health plans. We represent employers with more than 250,000 North Carolinians enrolled in employer sponsored healthcare coverage.

The Cadillac Tax is regressive and will primarily impact the middle class. In order to minimize its effects, employers will have to raise copayments and deductibles in their health plans. 83 million Americans participate in employer-sponsored health plans. The vast majority are middle class and many live paycheck to paycheck. The Cadillac Tax will impose great hardships on these people – your constituents.

H.R.2050 to repeal the Cadillac Tax was co-sponsored by 82 Democrat members of the U.S. House of Representatives. Our question is: What will your position be on the repeal of H.R.2050?

Sincerely,

Kimberli Lasyone
President
